

YEAR 6, MAKE YOUR OWN PICK UP STICKS

This activity is inspired by Wondall Height State School who got creative and tied this activity into the Year 6 curriculum. The students had to design and create their own tool / instrument to pick up litter!

If you choose to do this activity, please send us some photos!

You may also like to run it as a competition with a winner – you could then also submit an article to your local newspaper. See our [Quest Newspaper page](#) for more information.
