

TANGALOOMA ECOMARINES

ON A MISSION TO SAVE THE BAY

About Us

Tangalooma EcoMarines is a non-profit organisation based in Brisbane.

We inspire and empower students to become conservation leaders through our award-winning school programs.

Our free programs and events enable students and teachers to network with other schools, connect with local businesses, and learn from traditional owners and industry experts.

Our Secondary School Program

Each school has an EcoMarines teacher(s) and they appoint 4 – 8 students as EcoMarines ambassadors who lead various environmental challenges which we provide for them.

Our student ambassadors encourage the school network to identify and tackle challenges impacting their local community in a fun and creative way.

Benefits & Outcomes

- Student leadership
- Sustainability outcomes
- Connect with businesses and industry experts
- Networking and knowledge sharing with other schools
- Media opportunities
