LANDFILL

DID YOU KNOW...

Aluminium cans can take 200-500 years to break down in landfill? Please think about your waste before putting it in this bin.

YES

Most single-use coffee cups, ceramic and glassware, paper clips, and polystyrene (note: polystyrene can be recycled in some locations).

NO

Chemicals (e.g. paint), light bulbs, and recyclables where possible.

Do you have another odd item? Download the RecycleSmart app or search “Recycling Near You” to find out how to dispose of it!

LANDFILL
